REGISTRATION LAW.

For the benefit of those of sixth class towns especially, who are anxious to know something of the new registration law, we print in full the following special sent from Frankfort to the Courier Journal:

"Many queries are coming into the State Democratic Campaign headquarters at Louisville and to State officials here regarding the new registration law which is operative for the first time at the October registration next week. There is quite a difference of opinion as to whether the certificate of registration which is to be issued by the registration officials should contain the names of all of the precinct officers of election or only that of the clerk of the precinct in which it is issued. In many of the counties the certificates have been printed with only space for the clerk to sign his name, while in others space has been left for all of the precinct officers to sign. It is urged that the Legislature did not contemplate having the certificate signed by more than one of the officers, though issued in the name of all, as it would be unnecessary and require too much time to have all four officers attach their signature to each paper. Attorney General Hays thinks all should sign the certificate."

"Another matter that is causing some discussion is the failure of the law to provide for the issuing of certificates of registration, after the regular days of registration, by the County Clerks of the counties. Under the old law persons absent from the city or ill, could make affidavit and register in the office of the County Clerk later and be entitled to vote. The present law does not provide for the issuing of registration certificates by County Clerks except where they have once been issued and have been lost. It is thought that this defect can be gotten around by proceeding in this matter under the old statute and having the Clerk, upon affidavit of the person, issue a certificate setting forth that the voter has so gotten his name on the poll books."

"It is generally thought here that the extension of registration to towns of the sixth class was inadvisable, as many of the small incorporated towns in the State have practically gone out of existence, having no town trustees or other officials, yet they will have to comply with the registration law. In one instance that has come to the attention of Chairman Hager the residents of two such towns, located within a mile of each other, vote at one precinct in one of the towns. In another instance a town of the sixth class is in two counties, and the residents of one-half of the town go several miles in the country to vote. In this latter case registration certificates will have to be provided for some of the voters in a precinct and not to the others."

"The question of the constitutionality of the act is now pending before the Court of Appeals in a case brought here from the Keaton Circuit Court, in which Special Judge Mackoy held it to be illegal."

A decision is expected within the next few days, probably before the day fixed for regular registration.

THE STOMACH IS THE MAN.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia Cure digests what you eat, cleanses and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. Sold by Mt. Vernon Drug Company.

It is so dry in sections of Grant county that even the frogs can't croak. This reminds us of the Fleming county man whose sow became so thin during the drouth that he had to soak her in the creek over night before she would hold slop—Ex.

yard staff and every safeguard against interference with the judge in his examinations will be provided. The highest class of horses has been assured for the sale, and there will be no lack of spirited competition from buyers from all the horse-breeding districts of the world.

FAIR MANUFACTURING COINS

Gold Pieces Comparing with California Quarters and Halves Are Made at the Exposition.

The smallest amount of gold that has ever been issued in the form of coins were the quarters and half-dollars issued by private gold producers of California for a few years following the gold finds of '49. These were in a measure a necessity, for the reason that small currency was then decidedly scarce on the Pacific coast. These diminutive gold coins have proved in recent years a decided curiosity to many and have advanced in value to about 500 per cent.

The interest found for these small gold pieces has prompted Farran Zerbe, chief of the World's Fair souvenir coin department, to privately issue gold pieces comparable with the California gold quarters and halves, as companions for the Louisiana souvenir gold dollar. They are coined from gold mined in the Louisiana territory and in design are typical of the territory and its centennial celebration. The obverse bears a fleur-de-lis with "L. P. E." in the extended points, surrounding are 14 stars representing the 14 Louisiana states and the date 1801. The reverse is inscribed with the fractions 1/4 or 1/2 surrounded by Louisiana gold.

In connection with the Louisiana souvenir gold dollar these diminutive gold pieces are sold at face value, the set of three pieces commanding \$3.75, and are obtainable direct from the exposition's coin department. Three dollars, the price originally established for the Louisiana souvenir gold dollar, is and will positively be maintained.

WILLIAMSBURG.

Mr. G. A. Denham is visiting his brother, W. R. Denham, near Stanford.

Mrs. W. H. Parker has gone to spend a few weeks with her daughter, Mrs. Geo. Freeman, near Bergen.

The L. & N. has begun to build a large and up-to-date depot at this place. It will be on the site of the old one.

Mr. George Parker left on Tuesday for Louisville, where he will begin his third year in a medical college.

Miss Lena Duke Hawkins has recovered from the typhoid fever, and returned to Midway to enter school again.

Several new buildings are going up in Williamsburg, and a great deal of other improvements are being made. So our town seems to be looking up in every respect.

The way crime is being shown up in Louisville, it would seem as ridiculous for that city to throw up crime to the "mountains" as it would be for the kettles, pots and the gas works of Louisville to throw up black to a kitchen lamp chimney.

A corps of surveyors and attendants belonging to the Southern Railroad, have pitched their tents just below town and are making observations up and down the river. It looks like this means something, and if we get another railroad here, then Williamsburg will become a manufacturing town and the best town in this part of the State.

We are glad to announce the wedding of Mr. Green Kirby and Miss Emily McFerron, which was quietly celebrated at the home of the bride's parents.

The teacher's meeting at this place was a success and well attended. A beautiful dinner was served to the visitors by the patrons of the district and there was plenty on the board for all.

FEARFUL ODDS AGAINST HIM.

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies: "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by all druggists.

A schoolboy in Jewell City, Mo., was assigned to prepare an essay on the subject of "Ducks," and this is what he wrote: "The duck is a low heavy-set bird, composed mostly of meat and feathers. He is a mighty poor singer, having a hoarse voice caused by getting so many frogs in the neck. He likes the water and carries a toy balloon in his stomach to keep from sinking. The duck has only two legs and they are set so far back on his running gear by nature that she came partly near missing his body. Some ducks when they get big have curls on their tails and are called drakes. Drakes don't have to set or hatch, but just loaf, go swimming and eat. If I was to be a duck I'd rather be a drake every time.—[N. Y. Tribune.

He also purchased a nice bunch of Wm. Layson, at Millersburg. He has bought in all about 500 head in Bourbon at above average weight and price.—Paris News.

FROM 148 TO 92—POUNDS

One of the most remarkable cases of a cold, deep-seated in the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fennel, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "I was coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Mt. Vernon Drug Company.

Dinner For Two.—Mr. Newwood—How is that, my love? Nothing in the house to eat? I gave you money this morning.

Mrs. Newwood—Yes, I know; but I ran across the most exquisite charming London dinner gong—awfully fashionable, you know—and I couldn't resist the temptation to buy it.

Mr. Newwood—But what shall we do for dinner?

Mrs. Newwood—We can listen to the gong.

THERE has been some complaint that the Campaign in Kentucky lacks spirit and the democratic voters are not approaching the November election with their customary enthusiasm. When it is understood that the same condition of affairs exists in every other State and that both the democrat and republican campaign managers are mystified at the lack of individual interest, it will be seen that Kentucky is not an exception. In fact the contentment that possesses the minds and souls of the democratic voters is proof that they have no fear of the result in Kentucky this year. Governor Beckham's splendid victory has been accepted as convincing proof that Kentucky has returned to its allegiance to democratic truths and traditions and that never again will it turn from the faith of the fathers. It is just as well however, not to be too confident. Great party victories like great battles are only won by skillful management, hard fighting and proper disposition of one's forces. Kentucky is undoubtedly a democratic State. Under the most adverse conditions we can be sure of a majority of from ten to twenty thousand, but this year the campaign committee will not be satisfied with less than forty thousand. It is the wish of every loyal man that the State be restored to its old place as a Gibraltar democracy. This can only be done by thorough organization in every precinct and by rousing the individual democrat to a sense of his responsibility in the premises. He must not only cast his own vote, but see that his neighbor does likewise. The Republicans are making a still hunt, backed up by a big corruption fund rung from the trusts and corporate magnates of the East, and it will not do to give them too much leeway.

GOVERNOR BECKHAM will open the campaign at Frankfort on October 3rd. On that same day, thousands of other eloquent democrats will set the ball rolling in the various districts. It will be a concerted movement against the ranks of the enemy and there will be no cessation of the good work until the polls close in November. Although the Republicans are showing no signs of life and have practically conceded the State to the Democrats, Chairman Hager and his associates of the campaign committee are going to labor as hard as if the State were debatable ground. It will be a heart warming message to democrats everywhere when Kentucky goes 40,000 for Parker and Davis.

Not only the possibility but the probability of Judge Parker's election becomes apparent as soon as one studies election victories of the last two contests. In 1896 Bryan received 176 electoral votes. It is conceded that Judge Parker is certain to carry every State that Bryan carried in that year; add to this number the 36 votes of New York and the 13 votes of Kentucky which went for McKinley and it will give him 224 votes just 15 short of the 239 required to elect. If he carries Indiana he will be the next President. If he carries West Virginia and Wisconsin he will win. In fact there are a dozen different probabilities that make it easy to forecast a democratic victory.

GROVER CLEVELAND has written a number of articles in behalf of Parker and Davis and it is probable that he will make one or two speeches for the ticket in New Jersey and Connecticut. While we are not going to tear our clothes expecting anything Grover may say, nor do we have to admit that he cuts no ice in the Eastern States and that his influence may bring New Jersey and Connecticut back into the Democratic column. If Grover can do this even the Free

Silver men, who hate him like the devil hates holy water, will forgive him many of his sins.

POLITICS AND POLITICIANS

Cornelius Vanderbilt has refused to accept the Republican nomination for Congress in the Thirteenth New York district.

President Roosevelt will soon issue a call for the nations of the world to join in a second congress at The Hague for the promotion of arbitration.

D. C. Edwards in person filed at Frankfort the certificate of his nomination for Congress, Eleventh Kentucky Congressional district, on the Republican ticket.

Judge Parker, after two days of conference with the democratic leaders in New York City, returned to Esopus highly gratified with the party prospects in New York State and throughout the country.

The Democratic and Republican candidates for Congress in the Tenth district will institute during this campaign a novelty in the way of conducting a canvass. They will travel together, sleep together and speak from the same platform. They are the best of friends now, and believe that they can save the wear and tear on the voters, have bigger crowds and cover the situation by going together than by holding separate meetings. T. P. Blakey, the Republican candidate, was in Louisville yesterday and called at Republican headquarters. His opponent is Congressman F. A. Hopkins, and the two have been close personal friends for some time. Mr. Blakey said yesterday: "We will have to go over the district or a large part of it, on horseback and we thought it would be just as well to conduct a joint canvass. We expect to meet on the stump and will do most of our speaking from the same platform, and although we will make speeches in Breathitt county, we do not expect the debate to provoke any disorder. We will have a nice, quiet time of it, I am certain." Courier-Journal, Saturday.

Two passenger trains on the Southern railway, carrying heavy loads of passengers, collided near Newmarket, Tenn., and fifty-four people were killed and more than 100 were injured, several of whom probably will die. The wreck was caused by the failure of an engine, to obey orders. Retreating were sent out from Knoxville, and the injured and those of the dead were taken to the city. The bodies of several of the trainmen were buried under the debris at the scene of the collision.

A plan to poison James H. Mulligan and his family at Lexington Saturday night, for the purpose of securing a large estate, recently bequeathed to the family, miscarried only by the confession of a colored house boy who claims to have been hired by a near relative of the Mulligan family to poison them. The negro placed a large quantity of arsenic in a baked salmon which was served for dinner Saturday evening. He weakened when he saw the family sit down to the table and gave warning barely in time. The near relative whom the negro accuses will not be arrested.

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pair results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly re-adjust this. It's gentle, yet thorough. Lesson in the International Series for October 2, 1904.—Elisha Succeds Elijah

(Prepared by the "Highway and Byway" Preacher.)
(Copyright, 1904, by J. M. Edson)
1-PERSON TEXT.

(11. Kings 2:12-22; Memory verses, 12-14)
12. And Elisha saw it, and he cried: My Father, my Father, the chariot of Israel, and its horsemen thereof. And he saw him no more, and he took hold of his own robes, and rent them in two pieces.

13. He took up the mantle of Elisha that fell from him, and went back, and stood by the bank of Jordan.

14. And he took up the mantle of Elisha that fell from him, and went back, and stood by the bank of Jordan.

15. And when they urged him, he was ashamed, he said: Send. They sent therefore fifty men; and they sought three days, but found him not.

16. And when they came again to him for he tarried at Jericho, he said unto them: Did I not say unto you: Go not?

17. And the men of the city said unto Elisha: Behold, I pray thee, the situation of this city is pleasant, as thy lord seest; but the water is naught, and the ground barren.

18. And he said: Bring me a new cruse, and put salt therein. And they brought it to him.

19. And he went forth unto the spring of the waters, and cast the salt in there, and said: Thus saith the Lord, I have healed these waters; there shall not be from hence any more death or barren land.

20. So the waters were healed unto this day, according to the saying of Elisha which he spoke.

SCRIPTURAL SETTING.—The entire chapter, with a review of Elisha's call in Kings 19:16, 17-22.

COLLEGE TEXT.—"Let a double portion of this spirit be upon me."—11. Kings 2:9. TIME.—Immediately following the events of the season for September 11. The prophet's ministry extended through about fifty years.

PLACE.—The scene of Elisha's translation, and at Jericho.

Beginning of a Great Mission.—The Place of Endowment.—Elisha was destined to fill the place of a great prophet, and our lesson to-day introduces us to the initial events in his career, which are preparatory to and prophetic of the future success of his mission. If Elisha were to fill Elisha's place he must be endowed with Elisha's spirit. The disciples to perform the Lord's service must wait for endowment of power, for the descent of His Spirit (Acts 1: 8, 2: 1-4). The servant of the Lord to-day must wait for the power and inspiration which will equip for service. What had brought Elisha here? The place of such endowment is always marked by (1) Watchfulness. Elisha waited. (2) Revelation. Elisha saw the presence and glory of God as Elisha was snatched from earth to heaven, and it quickened his heart to a new consciousness of God and His power. The soul that watches eagerly and persistently will be rewarded with a revelation of God which will thrill the whole being and call into life new capabilities and create new possibilities.

The Place of Testing.—The place of testing always lies just beyond the place of endowment. Elisha in the wilderness beyond Jordan gazing up into the heavens, would never prove in efficient or worthy successor of Elisha. The two long gazing up into heaven need Divine rebuke (Acts 1: 11). Elisha must return, and in the pathway of the return lay the broad in fordable Jordan, the Place of Testing. All that he had was the bare word of the prophet and the mantle of Elisha, which was the evidence of Elisha's departure. The testing was for the noble purpose of revealing to Elisha himself and to the sons of the prophets gazing from the hills of Jericho the fact that Elisha's spirit had descended upon Elisha. "Elisha went over"—the place of endowment and the place of testing were just behind, but the place of discipline lay before him.

The Place of Discipline.—For three days while the faithful, unbelieving students of the college pursued their fruitless search, Elisha waited at Jericho. Those were days of discipline. While the search was on for Elisha Elisha must wait, and waiting is the most trying kind of discipline.

The Place of Service.—And now we come to the place of service. Endowment, testing, discipline and at last service. The discipline ended, Elisha finds his position strengthened in the city. Doubtless during those three days there was much discussion in the city of Elisha's disappearance, which tended to advertise Elisha. People go to discussing the miraculous events of the past few days and as a result faith in Elisha increased. Then came the opportunity of service. The men of the city came making request that the noxious waters might be healed.

There was a call to service. But who was to cure the brackish waters? "Like cures like" has long been a familiar saying. The use of salt suggests God's method of healing the world's sin. The shedding of blood to cleanse the crimson stains of sin. Death to cure death.

Bits for Contemplation.—When the soul becomes a singer life becomes a song. Temper is a good thing to keep, but a bad thing to show. Courtesy and good manners are commendable in a young man.

The palms of His hands will last long after all histories have disappeared. To consider well is good; to decide right is better; to act promptly is best. Christian activity has its fountain in Christian experience. Where the heart has felt no baptism the hand will have no cunning.—United Presbyterian.

Mr. Hayes is one of the best Democrats in all the country and a gentleman in every respect, and has many friends in this county, who are wishing him success.

The Winchester Granite Brick Co.'s Works at Dudley, Rockcastle county, are hard run just now to keep up with pressing orders. The business of the company is growing at a rapid rate. Peckham, Mrs. Frank Bigelow, of Milwaukee.

NOTICE.

I have just returned from the City with a large and complete line of Millinery Goods, consisting of Ladies, Misses and Childrens Hats. All of the newest styles in colors and shapes. We cordially invite everyone to attend our opening, SATURDAY OCT. 1ST.

MISS SALLIE PURCELL, With Purcell Sisters. sep 30-31. Brodhead, Ky.

Some few have refused to give in their property to the town assessor. We wish to again state for the benefit of all that the Circuit Court has ordered that this be done and if taxes are not collected and the streets and sidewalks repaired, the town is going to have the opportunity of paying several hundred dollars in fines, which of course will be of no benefit to the town—except as an object lesson—and still the work will eventually have to be done. So, why not all join hands and stop kicking. If anyone doubts that there is a corporation or the legality of the present board of trustees, they are invited to investigate the records and if not satisfied with that give it a test in the courts.

DEAD.—About 8 o'clock Tuesday night the sad and unexpected news flashed over the wires that Mr. John M. Brown was dead. Mr. Brown was born, reared and lived in this county all his life, except the last seven or eight years, when he made his home with his sons, Dr. E. J. Brown, of Stanford, and W. H. Brown, of Preachersville, being at the latter's home at the time of his death. He was 73 years old, and during his long career, at all times wielded a great influence for good in the community in which he lived. As we heard a friend say on yesterday: "If he had an enemy in all this county, where he lived so long, no one knew it." Besides his two sons, one daughter, Mrs. Ellen Baker, survive him. The remains were brought back to this county and at 9 o'clock yesterday morning were laid to rest in the Rock Springs burying ground beside his wife, who preceded him many years. Revs. M. Owens and A. J. Pike each offered short prayers and the Rev. J. C. Carmichael made a short and appropriate talk at the grave.

Says the Harrodsburg Democrat, of Mr. J. W. Hutcheson, who is to be the cashier of The Citizen Bank, at Brodhead: "Mr. J. W. Hutcheson, who has been cashier of the Farmers Bank of Salvisa since its organization, has resigned. He organized this bank and to his efforts is due the signal success of the bank since its organization. Taking everything into consideration the first year's work of this bank will compare favorably with any bank in the State. During the last year Mr. Hutcheson has organized a number of banks throughout Central Kentucky, and there is such a demand on his services in organizing banks that he will probably devote all of his time now to work of that kind. He seems to be a natural financier, and together with the strength that a thorough education affords, his many years experience in the banking business, a thorough knowledge of human nature, a congenial disposition, and, above all, a young man of the highest moral character, places him as a leader of the banking fraternity of our State. He will be a valuable accession to any bank securing his services. The people of Mercer county, while they regret to know that he will soon leave our county, yet they can and do give him their unqualified endorsement as a thoroughly equipped banker and high toned gentleman in every respect."

CIRCUIT COURT.

Since our last issue, the following appears of record in the Circuit Court: Henry Hellard was given four years in the pen for killing Abe Drew. It will be remembered that at the May term Hellard was given 21 years on this charge, but was granted a new trial by the Court of Appeals.

Robert Burton was given two years for attempting to assault a ten year old girl.

Henry Cox was given two years for the killing of William Gant at Pine Hill last Christmas. Joe Frost, who was connected with Cox in the killing, had his case continued until the next term.

S. A. Isaacs for killing Mart Hubbard was acquitted.

COLLEGE NEWS.

The College Dormitory is beginning to assume a home-like appearance, and the members of the faculty are taking their meals in the house. All feel very grateful to Mrs. Miller for her kindness during the last two weeks.

School opened September 19th with twenty-four students. There are thirty-three enrolled now, and more coming Monday.

Miss Lyon, who has been so long expected, is now with us, though still unable to be in school. Mr. Ray Miller, who will assist in the Collegiate department, and occupy the pulpit of the Presbyterian chapel once a month, arrives today.

On Wednesday—a little later—work in music, literature, etc., learned during the week, will be given in the chapel. We shall be glad to have the parents come in then, or any other morning, and remain to visit classes. Miss Nicholas' pupils sang, "The Dory Maid" very nicely last Wednesday. Mrs. Sparks and Mrs. Betancourt were visitors.

With a corps of well trained and hard working teachers, and a ready helpfulness on the part of the people seldom met with outside of Kentucky, the school can not fail.
